Piranha Max 10

Humminbird Piranhamax 10 Fish finder

Humminbird Piranhamax 10 Fishfinder With Temp

One-Touch menu system accesses your custom settings

Zoom enhances details to reveal more about the bottom, structure and fish

Loaded with maximum value, the Humminbird PiranhaMAX 10 offers a cutting edge High Definition 160Vx132H Display with new 4 level Clear Edge Inverse Grayscale to create sharp images of the bottom, fish and structure. Using the 20° single beam sonar and with water temperature, you'll locate the areas packed with fish. The One-touch™ fish finder design keeps it simple to use the most important features including Fish ID+ with target depth, Zoom, Depth Alarm, and Fish Alarm.

Piranha Max 10 Fish Finder

Specifications

- Depth capability: 240 feet
- Display window size: 3-7/8-inch diagonal Display matrix: 160v x 132h
